

Trades & Technical Training – Certificate Application Process

The MEARIE Group's highly regarded 'Certification Program' certifies qualified personnel in five trades. The following summarizes the certificate application process for each of the trades below.

Powerline Technician: Successful completion of the Powerline Technician orientation training and Levels I-IV training with 8000 hours of related on-the-job experience, including a minimum of 10 months work activities after completion of Level IV. All practical work must be documented in the Powerline Technician Trade Skills Log Book. An application form is mailed to the employer once the trainee completes the Level IV Lines training.

Journeyman Underground Power Cable Person: Successful completion of the Underground Power Cable program with 6000 hours of related on-the-job experience. An application form is mailed to the employer once the trainee completes Level III training.

Journeyman Electrical Operator: Successful completion of the Operator training program with 8000 hours of Electrical operating experience. An application form is mailed to the employer once the trainee successfully completes this training program.

Journeyman Substation Electrician: Successful completion of the Substation Electrician Level I-III training program with 8000 hours of electrical station work experience. An application form is mailed to the employer once the trainee completes Level III training.

Meter Technician: Successful completion of the Meter Technician training program with 8000 hours of electrical metering work experience. An application form is mailed to the employer once the trainee completes Level III of the training program.
